

A black and white photograph of a pier with silhouetted people and a street lamp against a cloudy sky. The scene is captured in high contrast, with the dark silhouettes of the pier structure, a street lamp on the left, and several people standing on the pier in the foreground. The background is a bright, overcast sky with soft, diffused light. The overall mood is somber and contemplative.

[En] → Flat glass panels shaped and decorated in white color can be installed at wish creating various compositions. The 50 AP/PL model has 2 glasses and the 60 AP/PL model has 3 glasses. All glasses are held by a powder-coated front metal detail, in white RAL 9010. LED 220-240V installed at the back of the fitting and screened by prismatic PMMA.

[It] → Lastre in vetro piano sagomato decorato bianco montate a piacimento creano diverse composizioni. La versione 50 AP/PL utilizza 2 vetri, nella versione AP/PL 60 invece 3. I vetri vengono tenuti da particolare frontale in metallo verniciato a polveri bianco RAL 9010. Sorgente LED 220-240V collocata lato parete con copertura in PMMA prismatico.

SMOKE *collection*

[En] → **Overlapping.** The apparently casual juxtapositioning of formless shapes gives birth to SMOKE. Sheets of white glass overlap, giving an interesting play of light and darkness that are appraised by the reflective surfaces of the diffusers. They are presented as independent elements and can be matched up in different positions opposite each other, creating a variety of shapes.

[En] → Despite the lamp is totally open to the sides, the light source is not visible, because it is covered by a prismatic PMMA element.

[It] → Nonostante la lampada sia totalmente aperta lateralmente, la sorgente luminosa non è a vista in quanto coperta da un elemento in PMMA prismatico.
